

All of our glazed pots are fired in gas kilns. These are far more environmentally friendly than the large, wood fired "Dragon" kilns that burn a huge amount of rubber-wood at each firing. Gas kilns also ensure more even colors because the temperature is controllable; unlike wood fired kilns.

Sun Pottery offers:

- Lovely, traditional designs.
- Each design comes in three configurations: High, Medium, Low.
- Each configuration comes in at least three sizes.
- All pots feature drainage holes in the base.
- Each pallet includes pot feet or saucers, which makes it easier for customers to buy a complete package
- Each pot includes a tag showing the soil capacity in cubic feet to make the purchase of soil easier for the consumer.
- Labelled "Frostproof" and "Eco Friendly."
- No color "splash" shows inside the pots, making them more attractive to consumers.

**EASY SHIP
